Berkeley- and El Cerrito-based Winslow Tennis Academy is for players of all ages and levels. We have fun while getting after it. Coach Alexander develops young kids, older kids, beginners, high school varsity and tournament players, and has an active junior development program and junior team. I also delight in working with adults, whether those learning for the first time, rediscovering their games, playing social doubles, or competing in U.S.T.A. league matches. **I teach excellent mechanics, footwork and shot-making techniques; keep players moving, drilling and having fun; and strengthen players' quickness and conditioning.** **With advanced competitive players,** we also work on point tactics, shot selection, match strategies and management, and mental approaches; I help them win more points and become more confident competitors.
